

# TheNerubins ScreamSheet #2

## for use with CyberpunkRed

What you have before you is a Screamsheet, or short news bulletin that is used in Cyberpunk Red as background information for missions/adventures. This one is the first related to a campaign of Cyberpunk Red I have started in early 2025.

What is it for?

These news stories are tailored to the player characters backgrounds in my campaign and to upcoming adventures. Please feel free to use them wherever inspiration takes you in your own games.

The news articles presented here are works of fiction and should not be taken out of this context.

This is Version 1.1 of this document with a few minor corrections and individual pages.

Disclaimer: "TheNerubins ScreamSheet #2" is unofficial content provided under the Homebrew Content Policy of R. Talsorian Games and is not approved or endorsed by RTG. This content references materials that are the property of R. Talsorian Games and its licensees.

## Bumbreaker has grudge against Militech?

Our research into the murders of the Bumbreaker, partly using the videos from his merch-store, have revealed that most of his victims, that we could verify, have an employment history with Militech in the 4th Corporate War. It is a shame that so many defenders of the NUSA have ended up in the streets. In his latest murders he used piles of free kibble to lure his victims into dark alleys. We will keep you posted on the latest.

## New Battleground Championship

It's wrestling time chooms! There will be Muscloplosions galore at "Nuke in the Ring 6" this monday at the McCartney Stadium or Live on KMSE -Braindance. There will be SWEAT, BLOOD and BONE! The Strawmen will face off against the Clowns Of Chaos in this year's Nuke-Match, in which a live grenade is hanging from the ceiling, the teams fighting to pin their enemies in the ring and getting to the release button at the same time. It WILL be EPIC! I can't wait to see Macorpo vs. Spiderpunk! Also this year "Crimson Drop" Battista will defend his Championship the last time against Andre "The Power Line". When Battista announced he would leave the League because he needed a cyberleg he promised to leave as a Champion. Will he make it or will he leave stomped into the ground? Everyone who wants to commemorate this special match will have the opportunity to bid on his ganic leg, which will be removed right after the match, bruises and all, and cryogenically suspended. The proceeds will go to the Santo Domingo School of Martial Arts. Cry Havoc!

- G. Ossip

## Rebuilding the Subways

City Hall has announced that it will fund a new program to reconnect the last old NCART underground tunnels and then seal them against flooding. People willing to join the program's workforce will be offered a variety of benefits ranging from free cybernetic implants, subsidies to housing expenses and guaranteed admission into the Night City University. The program will be supervised by Night Corp Executive Julia Richmond-Night.

## Want a new Heart? Get paid as well!

The Crisis Medical Center has announced they offer everyone with a Dynalar D6 heart implant a brand new replacement with a D8 version. In addition they offer 500eb for the old implant. Dr. Maynard, chair of the board of cardiology at Crisis MC, urged implantees to seek medical care immediately, as a firmware bug would render the implants useless soon, with lethal consequences. Dr. Maynard said, and I quote, "We at Crisis MC and Dynalar Technologies strive to provide only the best medical care for our patients and want to prevent unnecessary loss of life. The payment is to alleviate any doubts as to our intentions."

## Your chance to profit from love!

A new subsidiary of Biotechnica, ReplicAnimals, has started operations and is seeking investors for their new brand of cloned animals, "Friend Or Feast", marketed as either luxury food or as pets, or both. The small wonders are able to live on a diet of Kibble and Smash! The animals come with a guarantee that should they die of natural causes, normally after 10 to 15 months, they are food safe for a day after death or longer depending on preservation methods. Do you see the business opportunity? We at Lightray do!
